

**ALEC EXPOSED**

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporations-- includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

**DID YOU KNOW?** Corporations VOTED to adopt this. Through ALEC, global companies work as "equals" in "unison" with politicians to write laws to govern your life. Big Business has "a VOICE and a VOTE," according to newly exposed documents. **DO YOU?**

**Federal Relations**

Because of the success of **ALEC legislative leaders in the states, their careers are expanding beyond state legislatures.** As a result, ALEC has developed the Federal Relations program for its alumni members.

The focus of the Federal Relations program is to build a productive bipartisan working relationship among current and former ALEC members at all levels of government. Bringing state legislative leaders into contact with their congressional counterparts is the cornerstone of the Federal Relations program. It enables ALEC members, both state and federal, to secure and protect a sound and balanced government. Through this relationship, **ALEC provides its 77 members with information and testimonial support from the states on pressing policy matters.**

Did you know that Reynolds American-- one of the biggest tobacco companies in the world-- was the corporate co-chair in 2011?
