

**ALEC EXPOSED**

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporations-includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

**Resolution on State Use Tax on Prescription Drug Samples**

**Summary**

Many states currently impose a state use tax on prescription drug samples, while at the same time exempting the sale of prescription drugs from this tax. Free drug samples gives patients the opportunity to try new therapies and begin treatment immediately. This Resolution requests that states pass legislation providing a tax exemption on prescription drug samples.

**Model Resolution**

**WHEREAS**, eighteen states impose a use tax on prescription drug samples; and

**WHEREAS**, in the process of imposing a use tax, many states have also specifically exempted the sale of prescription drugs, pursuant to a written prescription by a licensed prescriber, from this tax; and

**WHEREAS**, revenue officials have taken the position that since the statutes refer to a written prescription, drug samples provided free of charge without a written prescription are not exempt from the tax, even though the sale of these products in a retail pharmacy would not be subject to the tax; and

**WHEREAS**, the availability of free samples provides an opportunity for the patient to gain experience with a new therapy and to begin treatment immediately, an important consideration when a patient does not have convenient access to a retail pharmacy; and

**WHEREAS**, the availability of samples allows patients with no source of payment for prescription drugs to have access to free prescription drugs; and

**WHEREAS**, many physicians have found prescription drug samples to be an important source of private subsidy for uninsured patients.

**NOW, THEREFORE BE IT RESOLVED**, that legislation must be passed in the affected states to provide a clear and unambiguous exemption for the manufacture, use, storage, consumption or distribution of free drug samples provided to a licensed prescriber.
