

ALEC EXPOSED

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporations-- includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

From CMD: This "model" legislation attempts to equate a group that opposes teacher's unions and supports reducing the authority of university-based schools of education in certifying teachers with the long-standing, non-partisan "National Board for Professional Teaching Standards" (NBPTS). It proposes replacing the words "National Council on Teaching Quality" for every mention of the NBPTS in any statute, regulation or spending bill. The NCTQ is reportedly funded by individuals and organizations known to have ideologically "conservative" ties and agendas.
